

MEDI NOTES UNVEILS REDESIGNED WEBSITE AT WWW.MEDI NOTES.COM

Company merges two sites to centralize EHR product info to help physicians select appropriate solutions for their practice

WEST DES MOINES, Iowa – July 2, 2008 – [MediNotes Corporation](http://www.MediNotes.com), a market leader in electronic health records (EHRs) with more than 23,000 users nationwide, today unveiled a redesigned website providing physicians with comprehensive, centralized EHR product information. This consolidation enables them to quickly determine the MediNotes software most suitable for their practice. Visitors to www.MediNotes.com will experience new features, including information on discipline-specific solutions for over 20 specialties, revamped product tours, as well as user-friendly navigation based on size of practice and/or whether the site visitor is looking for a stand-alone EHR, an integrated EHR/practice management (PM) solution, electronic prescribing or supply chain management (SCM) software.

“MediNotes previously offered corporate and product information through two sites, which have now been combined into one improved site to reflect our evolution as a leading provider of EHR and PM solutions for practices of all sizes,” said MediNotes’ CEO and President, Donald Schoen. “Our goal with the enhanced website is to educate the market about MediNotes’ superior products, as well as to make it easy for physicians, who are always pressed for time, to conveniently navigate through pages and quickly access the information they need.”

MediNotes’ customer case studies, company awards, press releases, recently published articles, as well as job openings are posted on the site. Additionally, the site gives in-depth information on MediNotes’ suite of products including MediNotes e, a best-of-breed, stand-alone interoperable EHR for small practices, and MediNotes Clinician™, the industry’s most advanced, integrated, award-winning .Net-based EHR/PM/SCM, which includes electronic prescribing, patient portals, patient kiosk, image management and web portal for practices of 10 or more physicians.
